

Ikrame Ibn Hayoun

Backend Python | FastAPI | Generative AI | LLMs | Prompt Engineering | Remote or Hybrid

ikihga2223@gmail.com | +34 682 02 76 93 | Málaga, Spain | ikrame.dev

SUMMARY

Backend Python engineer in Málaga. +3 years of professional experience and production projects (EY, ops roles, and a software internship). I build REST APIs with FastAPI, PostgreSQL, Redis, SQLAlchemy, Pydantic, and pytest. In product I use generative AI: prompt engineering, closed-schema LLM extraction, embeddings, hybrid retrieval, and RAG-style grounding. Day to day I work in one harness: specs in Obsidian, spec-driven development, Orca to route agents. I write the code in Cursor with Grok 4.6, Composer, Codex (Astra, Sol, Terra, Luna, GPT-5), and Gemini Pro and Flash 3.8. I merge. Currently a vocational specialization in AI and big data (PySpark, DataFrames; 100% online) and preparing official cloud certifications (GCP, AWS). DAW graduate (Jun 2026), capstone 10/10. Open to remote or hybrid backend and GenAI roles.

SKILLS

Backend Python. Python, FastAPI, PostgreSQL, SQL, Redis, SQLAlchemy, Alembic, REST APIs, Pydantic, JWT, Celery, Stripe, pytest, mypy, PySpark, DataFrames, Spark

Generative AI. Generative AI, NLP, LLMs, Prompt engineering, RAG, Embeddings, Hybrid retrieval, PydanticAI, Groq, LangGraph, LangGraph.js, Tool calling, Structured outputs, Guardrails, LLM routing, Context engineering, Spec-driven development, Obsidian, Orca, Cursor, Grok, Composer, Codex, Astra, GPT-5, Gemini Pro, Gemini Flash, Prometheus

Delivery. Git, CI/CD, GitHub Actions, Docker, Docker Compose, Vercel, React, TypeScript, DataFlex, Power Apps, Power Fx, Node.js, Vitest, Cursor, Obsidian, Orca, GCP, AWS

PROJECTS

ReckonFlow

Aug 2026

[GitHub](#)

Headless FastAPI API for corporate travel: approvals, immutable double-entry ledger, LLM receipt extraction, hybrid bank reconciliation. Live: reckon-flow.onrender.com/docs

- Generative AI: PydanticAI + Groq structured extraction (schema extra=forbid) as a guardrail against prompt injection; HTTP 202 background jobs; stub provider in CI; retries on rate limits. The model cannot approve or pay.
- Hybrid retrieval: SQL prefilter, RapidFuzz, embeddings, Reciprocal Rank Fusion (RRF). Prometheus /metrics. Python, FastAPI, PostgreSQL, Redis, pytest, CI/CD.

Validata

2026 - Present

Private B2B SaaS with Jairo García Antolín. Batch lookup of Spanish companies by legal name against official BORME records. FastAPI, Celery, Redis, PostgreSQL, React.

- Company-name column inference, atomic Redis quotas, HMAC download tokens, Stripe test Checkout, waitlist, GitHub Actions CI.
- Legal-form mismatch (S.L. vs S.A.) stays REVISION_SUGERIDA. Original file columns preserved on export.

Import Resolve Cli

Aug 2026

[GitHub](#)

Published on PyPI (import-resolve-cli). Git merge driver that resolves Python import-block conflicts. Zero runtime dependencies. CI: pytest, mypy, ruff.

MyPlaythrough

Sep 2025 - Jun 2026

[GitHub](#)

DAW capstone, grade 10/10. Game library with React, Node.js/Express, PostgreSQL, JWT, Docker Compose. Vitest on client and server. Live: my-playthrough.vercel.app

Málaga Onboarding

2026 - Present

Guide for PTA expats relocating to Málaga. Production plan API is a deterministic topological sort - no LLM on the user path (0€ inference). Operator-only LangGraph.js CLI verifies JSON fact sheets locally.

- Four-node graph with typed GraphState: researcher (Groq claims) → source finder (DuckDuckGo site-limited search, fetch + Cheerio) → fact checker (verified / uncertain / potentially_inaccurate) → editor (draft from official evidence only).
- Conditional routing: medium/high risk short-circuits to HUMAN_REVIEW_REQUIRED. No cross-run memory; each invoke is one sheet. Tool calling, prompt guardrails, Groq.

WORK EXPERIENCE

DATA CONTROL

Software Developer Intern

Málaga, Spain | Remote

Mar 2026 - Jun 2026

- Developed internal applications in a DataFlex environment and in Python: data access, business logic, and ongoing customization.
- Built a Moodle learning platform from scratch: environment and install, course and content structure, users and roles, SQL/database, and CSS/UI theming end to end.

EY Global Delivery Services

Executive Assistant

Málaga, Spain | Hybrid

Jan 2025 - Mar 2026

- Built a Power App (Power Fx) that ran the CNS Christmas raffle end to end: registration and number assignment in one place, instead of chasing it over email or Teams.
- Coordinated strategic client visits in Málaga end to end: agendas, logistics, and the on-site experience - days that often shaped whether a deal moved forward.
- Ran day-to-day ops - travel, Concur, Outlook, Teams, SharePoint, and the firm's internal tools - in a global professional-services setting.

EC Azafatas

Brand Ambassador

Málaga, Andalusia, Spain | On-site

Feb 2026

- Ran product tastings and stand logistics in high-traffic retail, including end-of-day inventory for the agency.

Conciencia Fundraising

Accounting & Administrative Assistant

Málaga, Andalusia, Spain | Hybrid

Nov 2024 - Dec 2024

- Tracked donors and fundraisers in Drive, Outlook, Evergiving, Factorial, Odoo, and Looker; recorded travel and expense costs for internal cost control.

SYLVIS PROFESIONAL COSMETIC

Administrative Assistant

Málaga, Andalusia, Spain | On-site

Mar 2024 - Oct 2024

- Reconciled bank accounts, posted company and import invoices, and tracked vehicle and import costs in Excel.

EDUCATION

IES Zaidín Vergeles

Artificial Intelligence and Big Data, Vocational specialization, EQF Level 5

Sep 2026 - Present

Granada, Spain

In progress. Coursework with PySpark, DataFrames, distributed computing, and ML.

CESUR Este, Málaga

Web Application Development, Higher Vocational Degree (DAW), Capstone: 10/10. EQF Level 5

Sep 2024 - Jun 2026

Málaga, Spain

I.E.S. Politécnico Jesús Marín

Business Administration and Management, Vocational Diploma, Graduated with Honors. EQF Level 4

Sep 2022 - Jun 2024

Málaga, Spain

LANGUAGES

Spanish - Native speaker

English - Professional working proficiency (C1)

Moroccan Arabic (Darija) - Native speaker
