

Ikrame Ibn Hayoun

Backend Developer | Python | FastAPI | PostgreSQL | Node.js | Málaga, Spain | Remote or Hybrid

ikihga2223@gmail.com +34 682 02 76 93 Málaga, Spain ikrame.dev

Summary

Backend-focused software developer based in Málaga, Spain. I build APIs, authentication flows, and databases, and I ship React frontends when a product needs a UI.

Recent work covers FastAPI and Node.js services, PostgreSQL, Redis, idempotent writes, CI with tests, and full-stack delivery across personal projects and an internship.

DAW graduate (Jun 2026). Capstone MyPlaythrough awarded maximum grade (10/10). AI and Big Data specialisation starting Sep 2026. Open to remote or hybrid backend roles.

Skills

Backend and data

Python, FastAPI, Node.js, Express, Java, PostgreSQL, SQL, Redis, REST APIs, JWT, Alembic, pytest, mypy

Frontend

React, Next.js, TypeScript, JavaScript, Vite, Tailwind CSS, Framer Motion, Zustand, Leaflet, Semantic HTML, Accessibility

Tooling and delivery

Git, GitHub Actions, Vitest, Playwright, Docker, Vercel, Electron

Experience

DATA CONTROL

Málaga, Spain

Software Developer Intern

Mar 2026 - Jun 2026

Internship focused on a Moodle learning platform, databases, and UI customization.

- Delivered a Moodle-based learning platform as the core internship project: setup, content structure, and ongoing customization.
- Handled day-to-day database work supporting the platform (queries, structure, and keeping data wired to the app).
- Owned the look-and-feel pass with CSS and UI tweaks so the experience felt coherent rather than stock Moodle.

EY Global Delivery Services

Málaga, Spain

Executive Assistant

Jan 2025 - Mar 2026

Executive support and internal tooling in a global professional services environment.

- Built a Power App that ran the CNS Christmas raffle end to end: registration and number assignment in one place instead of email and Teams coordination.
- Coordinated client visits in Málaga end to end: agendas, logistics, and local experiences.
- Ran day-to-day operations with travel tools, Concur, Outlook, Teams, SharePoint, and firm internal systems.

EC Azafatas

Málaga, Spain

Brand Ambassador

Feb 2026

Short-term brand activation role in high-traffic retail environments.

- Ran product tastings and short presentations in busy retail settings.
- Handled booth logistics and end-of-day inventory updates.
- Live retail operations later informed Live Event Radar, a real-time venue ops dashboard.

Conciencia Fundraising

Accounting and Operations Administrator

Operations and reporting support for a fundraising organisation.

Remote, Spain

Nov 2024 - Dec 2024

- Prepared donor reports and follow-up using Google Drive, Outlook, and Evergiving.
- Managed HR tasks in Factorial and tracked travel and expense costs.
- Maintained team coordination in Asana, Notion, and Slack; built reporting views in Looker.

Sylvis Profesional Cosmetic

Administrative Assistant

Accounting and import documentation support for a cosmetics importer.

Málaga, Spain

Jan 2024 - Oct 2024

- Reconciled bank accounts and posted invoices, including import purchases.
- Tracked vehicle and import costs in Excel and managed incoming documentation.

Projects

Import Resolve Cli

Aug 2026

CLI tool and Git merge driver for automatically resolving merge conflicts in Python import blocks. Published on PyPI with zero runtime dependencies.

- Python 3.9+, Git CLI, Hatchling, PyPI, GitHub Actions CI.
- Parses Git conflict markers, deduplicates and sorts import lines, supports dry-run and repo auto-merge driver mode.
- PyPI package: <https://pypi.org/project/import-resolve-cli/>

ReckonFlow

Aug 2026 - Present

Headless FastAPI backend for corporate travel: approvals, an immutable double-entry ledger, LLM receipt extraction, and hybrid bank reconciliation.

- Python, FastAPI, SQLAlchemy async, PostgreSQL, Redis, Alembic, pytest, mypy.
- Idempotent mutating writes, money as Decimal strings, row locks on reconcile, CI with coverage.
- Live API: <https://reckon-flow.onrender.com/docs>. Docs: <https://ikrame-ih.github.io/reckon-flow/>

Live Event Radar

May 2026 - Present

Real-time venue operations dashboard for brand activations with synchronized command center and telemetry map views.

- Developed with Next.js, React, TypeScript, Zustand, and Leaflet.
- Feature-sliced architecture, Vitest tests, Playwright smoke tests, and GitHub Actions CI.
- Live demo: <https://live-event-radar.vercel.app>

MyPlaythrough

Sep 2025 - Jun 2026

DAW capstone awarded maximum grade (10/10). Personal game library manager with backlog tracking, community features, recommendations, discussions, and admin moderation.

- Built with React, Vite, Node.js, Express, PostgreSQL, JWT, and Docker Compose.
- Vitest unit tests on client and server, with GitHub Actions CI.
- Live demo: <https://my-playthrough.vercel.app/>

Aiba

Jul 2026 - Present

Local-first Windows productivity companion for planning, focus sessions, and wrap-up, with session history and offline help. No account, no cloud.

- Built with Electron, React 19, TypeScript, and Vite.
- Compact timer plus expanded studio shell, focus guard, and preferences.
